Example of how to complete the tables on pages 5 and 6

How should the following be declared?

June 2014, you bought a desk for \$300 and a chair for \$80. In October 2014 you buy a display rack for \$400. You have a filing cabinet you bought 10 years ago for \$100 that is being used in your business. A friend gave you a used bookcase, in February 2016, which you believe, is worth \$50.

See the table to the right for the answer.

TAXABLE PROPERTY INFORMATION

- 1) All data reported should be:
 - Actual acquisition costs including any additional charges for transportation and installation by year for each type of property described. These costs, less the standard depreciation as shown on the form will determine the net depreciated value.
 - b) Include all assets that may have been fully depreciated, written off, or charged to expense but are still owned. Do not include disposed assets.
- Reports are to be filed on an assessment year basis of October 1. Acquisitions between October 2 and December 31 apply to the new year. (i.e. acquisition made October 30, 2015 is reported in the year ending October 1, 2016).
- 3) Computerized filings are acceptable as long as all information is reported in prescribed format.
- 4) Do not include disposed assets. Disposals are used to reconcile last year's reporting with this year's reporting.
