

Join Us For A Day On the Farm

Farmer Veteran Coalition and the USDA's Risk Management Agency have partnered to bring you this educational onsite workshop. This workshop can help you in starting up and operating your farm business, and understand best practices to operate optimally.

You will gain insight into:

- How to start and manage a farm business;
- Business planning for your farming operation;
- How to build a local support network;
- How you can receive and provide support and assistance through your support network;
- Best practices to minimize and manage risk;
- Loss management to most effectively recover from a loss; and
- Much more!

These events are free, but registration is required.

Follow the link to register today:
