Regarding Painted Rocks

The Sterling Recreation Authority has had great enjoyment with some of the placements of the painted rocks. To see the delight from some of the finder families is a reward in itself.

However;

We are asking if you place painted rocks at our facilities to please be mindful of mowing machines and trimmers when you place them. Size and area of placement can be critical. If they are placed in an open space they can become projectiles or if they are large they damage our machines, possibly causing injury to a worker or bystander and expensive repairs.

If you leave a rock please place it where it will be found easily and where it can cause no damage to person or machine.

We thank you for your consideration regarding this activity;

The Sterling Recreation Authority
