

April 14, 2016

The monthly meeting of the Sterling Energy Committee was not held due to the lack of a quorum. The members that were present decided to stay for a workshop.

Chamae Mejias, Community Outreach Manager from SmartPower gave a presentation regarding the Solarize Connecticut Program. This is an 18 week program geared toward increasing solar power usage within Connecticut at a savings to the homeowner. The next step is for members from the Energy Committee to select three (3) representatives who will be authorized to make decisions on behalf of the community throughout the installer selection process. The Board of Selectmen shall make the appointments at the next regularly scheduled meeting, as well as adopt the Solarize Connecticut Memorandum of Understanding Agreement.

The workshop adjourned at 8:15 p.m.
